TV

AT58 Series

Styled by Pininfarina, the AT58 Series flaunts fluid curves, cool lighting, and a slim profile. Its classic look and world-renowned design pedigree blend into your home with natural style. A unique lighting effect adds a touch of intensity, radiating an invigorating glow under the display. Visuals are fantastic with Acer InfiniContrast rendering sharp, Full HD detail.

Styled by Pininfarina

The AT58 Pininfarina design subtly recalls the curvy shape of a traditional TV, softening the hard, "techy-TV" feeling to blend in better with your home. The bezel becomes thinner towards the edge and features a dark-to-transparent gradient that also moves from center to edge -- both features enrich visual depth.

High-def perfection and more

Full HD 1920 x 1080 resolution means you can enjoy today's best Blu-ray content and more with true-to-master precision. Advanced InfiniContrast technology enables stunning picture quality with dramatic contrast improvement for sharper gradation and detail -- especially in dim or bright scenes.

Flexible multimedia connections

HDMI® connects high-definition devices with best-quality uncompressed video, enabling easy hook-ups to your PC, game console and more. A handy USB multimedia reader offers convenient access to photos and music, while a USB TV recorder with a pause function lets you enjoy your favorite shows whenever you want.
